

# EXAMPLES OF WHAT INDICATORS TO USE WHEN

**EXAMPLE:** A national charity is setting up a new employment programme for under 25s to improve rates of youth unemployment. They believe they can do this by training young people to develop new skills and by joining up with employers to support a national campaign.

**1**

## INPUTS

- **Cost of project in £s**
- **# Staff hours required**
- **# Volunteers required**
- **# Rooms required**

**2**

## PROCESSES

- **# Partnerships agreed**
