

THE CYCLE OF IMPACT PRACTICE

Credit: www.inspiringimpact.org
'The Code of Good Impact Practice'

Make decisions about your work going forward based on your evaluation

Share what you've learned

Update your plans, e.g. add new measures, use a different survey tool

4. REVIEW

Create a Logic Model, Theory of Change, or Monitoring & Evaluation Framework

Decide what you will measure

Decide your measurement tools, e.g. survey

1. PLAN

EVALUATION
Analyse the data you collected

Assess what the information is telling you

Make judgements about the information

3. ASSESS

MONITORING
Collect the information you planned to about the work you are delivering

Use your measurement tools

Record the results

2. DO
